

Scuba Divers Federation of South Australia Incorporated

Goals, Objectives and Key Issues

The goals of the Scuba Divers Federation of South Australia are to:

- Act as a peak body for recreational scuba diving clubs, snorkellers and free divers in South Australia.
- Represent all recreational scuba divers, snorkellers and free divers in all relevant diving matters, including the provision of information for decision making by government and / or the general public.
- As such, the SDFSA is very much involved in matters that affect recreational scuba diving, snorkelling and free diving in South Australia

The objectives of the Scuba Divers Federation of South Australia are to:

- Promote and encourage scuba diving, snorkelling and free diving as a recreational activity.
- Promote understanding between the public and recreational scuba divers, snorkellers and free divers.
- Represent the interests of members in any matters which may arise.
- Encourage the conservation, enhancement and rehabilitation of the marine and freshwater environments.
- Liaise with other organisations or agencies which might represent the interests of the federation.
- Notify members of any information in respect to scuba diving and the association's related interests.

Our key issues as listed on our website, <https://sdfsa.net> include, in order of current interest and activities:

South Australia Jetties Photographing Marine Life Marine Debris and Clean-up Protecting the Giant cuttlefish Sharks and Rays	Artificial Reefs Marine Parks and Protected Areas Wrecks and Underwater Cultural Heritage and Trails SDFSA Safe Diving Procedures
